

2016 Chart Your Own Course Program Off to a Great Start

Nine Agency Partners are progressing nicely in the Chart Your Own Course results program. Special congratulations to Adam Stauffer of Stauffer & Wiggers Insurance for already reaching the first tier of the Gold Incentive Level, making him eligible for a \$1,000 travel allowance.

Don't forget: You only need \$6,000 in annualized premium and 15 in-force issued policies to reach the first level of Gold and earn the \$1,000 incentive. However, you could earn up to \$8,000 in travel allowances through this program. The more you sell, you the more you earn — it's up to you! And, it's still early in the year, so let's work together to bring the value of life insurance to the record number of Americans who remain unprotected.
