

Commercial Lines Leadership Changes – Central States

Frankenmuth Insurance would like to announce a change in our Commercial Lines' leadership structure. Effective immediately, Scott Merrihew has assumed the CL Regional Director Position with the Michigan Region. Scott will temporarily maintain his role with the Central Region as we seek a new Director.

This new leadership position is a great opportunity for Scott, who has been with our company for more than 20 years and has delivered impressive results in the Central Region. Scott has helped to build a strong territory, which will allow him to smoothly transition the Central Region to the new Director. We are grateful for his efforts in the Central Region and look forward to watching him grow in this new position.

We want you to know we have considered the impact of these changes to your relationships and experiences with Frankenmuth Insurance and strive to make every transition as seamless as possible for our agency partners.

We've already begun recruitment for Scott's replacement, but Lisa Anderson continues to serve as Underwriting Supervisor. Please feel free to contact Scott, Lisa or your Field Manager with any questions.

Thank you for your business, partnership and loyalty.
