

Easier Auto Glass Claims Reporting With New Online Submission Option

Reporting an auto glass claim has never been easier thanks to Frankenmuth Insurance's new online submission platform.

In partnership with Safelite® Solutions, we offer a seamless, comprehensive glass program that helps your customers get their auto glass damage fixed quickly and conveniently.

Customers can file their auto glass claims online by visiting fminsdev.wpengine.com/auto-glass-claims. To submit a claim, they will need:

- Vehicle year, make, and model
- Address of desired service location (if choosing mobile service)
- Specify which piece of glass is damaged (windshield, back glass, side glass, other)
- Length of chip or crack (for windshield repair considerations)

Customers can still file a claim by phone, 24/7, by calling 844-241-6790. Download our [Safelite® Solutions Glass Program flyer](#) for more information.
