

Frankenmuth Insurance Commercial Underwriting Extension Changes

The Commercial Underwriting Blast Line extensions will change effective **June 29, 2012**. The Blast Line provides direct contact to specific Commercial Underwriting Regions. The new extensions provide an alternate Underwriting contact specific to your Region if your servicing Underwriter is not available and immediate assistance is desired. These new extensions support the new Commercial structure and replace x2851, x2852, and x3100, which you may have previously used. The new extensions are:
