

Frankenmuth Insurance Welcomes Phillip Maddox as Senior Loss Control Consultant

Frankenmuth Insurance believes risk prevention is one of the best ways we can provide peace of mind to our commercial policyholders and reduce claims for our agency partners. We seek out the most talented, experienced individuals to aid our agencies with their loss control efforts, which is why we are so pleased to announce the addition of Phillip Maddox to our team. Phillip will serve as Senior Loss Control Consultant for the Southeast Region, serving customers in the states of North and South Carolina.

Phillip brings a wealth of knowledge and experience with more than 25 years of establishing collaborative partnerships with business owners and management professionals in the industrial, manufacturing, construction, trucking, medical and municipal operations. He holds a Bachelor of Science in Psychology from Virginia Tech and is a Certified Safety Professional as well as a Professional Member in the American Society of Safety Engineers.

“What attracted me to Frankenmuth Insurance is the focus on relationships — both at the policyholder and agency level,” said Phillip. “I look forward to having discussions with both groups to support these individuals in reaching their goals and protecting their achievements through sound loss control measures.”

Phillip grew up in Richmond, Virginia but has lived in the Winston-Salem area of North Carolina for more than 24 years. He currently resides in Advance with his wife Jill and their three sons.

Please join us in welcoming Phillip to Frankenmuth Insurance, and we encourage you to reach out to Phillip to discuss ways in which he can help you provide loss control support to your policyholders.
