

New Public Website Feature: Loss Control Video Resources

In response to agency partner feedback, we now have safety training materials and videos accessible to Commercial Lines policyholders on our public website.

With this new self-service website feature, policyholders can be directed to visit <https://www.fmins.com/business/safety-services/>, and midway down the page, there is a tan-colored box with a link to view J.J. Keller's online catalog. Upon viewing the catalog, policyholders can place an order with our Loss Control team at losscontrol@fmins.com and materials will be sent directly to the policyholder. These instructions are outlined on the J.J. Keller site, and all resources are provided free of charge.

Safety training materials and videos

As an extension of our safety services, we offer Commercial Lines policyholders access to complimentary written safety programs, training materials, and videos to share with their employees through our partnership with J.J. Keller & Associates, a trusted source for safety and compliance.
