

Wisconsin Dividend Plans – New Notice to Workers Compensation Policyholders

When it comes to earning back a portion of paid premiums for workers compensation policies, we want your customers to maximize their returns. That's why we've developed a new form for our dividend plans, designed to help them, and you, better understand their dividend calculations as well as qualifications.

Effective October 1, 2022, new and renewal declarations will include a new form titled, "Notice to Policyholders – Wisconsin Dividend." The form will include the dividend plan type and provide some additional information regarding dividend calculations and loss prevention/reduction measures.

If you have any specific account or dividend questions, please reach out to your field manager or underwriter. We appreciate your continued business!
