

EPLI to no longer be an automatic roll on

Throughout the past several months, we have been informing you of enhancements to our EPLI coverage.

Our expanded program becomes effective on May 1, 2011.

As a part of the filing approval process in the State of Ohio, however, it has become necessary for us to make a significant change to the way we include EPLI coverage on our quotes. We will no longer be able to automatically roll on this coverage.
