

Now's the Time to Place Your New Workers' Comp Business with FI

The Michigan insurance market is heating up, especially when it comes to workers' compensation. At Frankenmuth Insurance, we recognize the significant value of workers' compensation business in your portfolio and ours, so we're taking action to bolster mutual production.

Effective Feb. 1, 2016, we are decreasing rates on the majority of our class codes. Overall, this translates into a rate decrease of just over 10% with individual classes varying based on their past performance and future opportunity.

We hope this aids our Agency Partners in generating new worker's comp business, and we look forward to working with you on the many new opportunities these changes will bring. Feel free to contact your commercial field manager or underwriter with any questions or comments.

Thanks again for your partnership and support.
