

Premium Audits Now Available for Online Submission

Frankenmuth Insurance is excited to announce that the premium audits traditionally done via mail can now be completed online. This great new paperless feature allows Commercial Lines policyholders a secure and convenient way to complete their annual audits without the hassle or cost of mailings!

To inform policyholders about this new feature, we will be sending a letter of explanation with directions on how to complete their audits online. To learn more, we encourage you to visit our [Premium Audit Guide](#), which fully explains the audit process.

If you or a policyholder needs more help, feel free to contact one of our audit technicians at (800) 234-1133 Ext. 4013.

For those who prefer the mailed option, policyholders can request a mailed audit form by dialing the same number above.

We hope this new feature provides a fast, convenient way for policyholders to complete their audits efficiently so they can remain focused on the things that matter to them the most – managing their businesses.
