Frankenmuth Insurance Named a Top Business Insurance Service Provider for 2026.

When choosing a business insurance provider, coverage and cost matter, but what truly defines the experience is how your insurer shows up when it counts.

That's why we're proud to share that Frankenmuth Insurance has been recognized by *Insurance Business Review* as a **Top Business Insurance Service Provider for 2026**.

This recognition reflects an approach that has guided us for more than 150 years. We believe insurance works best when it's personal, when decisions are shaped by real-world understanding, and when relationships drive results.

At the center of that approach are the businesses we serve. We focus on understanding how our policyholders operate day to day, the risks they face, and how those risks evolve over time. Whether it's identifying gaps before a loss or responding quickly and fairly to a claim, our goal is to help businesses recover, rebuild, and move forward with confidence.

That level of service is made possible through our partnership with independent agents. The agents we work with live and serve in the same communities as their clients and bring valuable insight into each business. By working closely together, from underwriting to claims, we're able to deliver coverage that reflects real-world needs.

Strong business coverage starts with the right partner. Contact us today to learn more and connect with a local independent agent.
