Wiring, Plumbing, & Roof type changes for HP and FP in iBIS – MI

For Home and Dwelling Fire policies effective 12/1/2014 or greater, new drop down fields for Wiring Type and Plumbing Type have been added to the iBIS Rating/Underwriting Screen.

How does this enhancement work?

For HO-6 and Dwelling Fire Unit Owners where the year of construction is 1965 or older, the Wiring Type and Plumbing Type will now be required at issuance. In addition, Roof Type will now be required at issuance for all HO forms except HO-4 and HO-6.

For any questions related to the new wiring, plumbing or roof type fields, please contact your Underwriter or Field Manager.

For any iBIS technical questions, please contact eBusiness Support at 1-800-234-1133 extension 3000 or send us an email at agencyservices@fmins.com.
